Titan Pedestrian Barrier

The Titan is a highly visible durable barrier, recognised for its ability to stack and link together.

100% Metal Free and Fully Recyclable

Characteristics

- **2 Metre long sections**
Durable and robust
- **East to stack & unstack**
Stable footing
- **Sections link together and with other barriers**
- **Red & White Reflective panel for excellent visibility**
- **Contractors panel/logo can be incorporated**

Details

Titan Barrier is the recognised and well established stacking barrier - it has all the usual advantages of standard stackable systems but in addition has many unique features. Titan is a one-piece injection moulded design made from prime grade Polypropylene offering sub-zero temperature and 2 year colour fastness properties. The design is 100% metal free and fully recyclable.

The red & white reflective panel meets EN12899-2 requirements. The new linking facility enables easy connecting and compatibility with not only other styles of JSP barriers but also other brands. Stable Feet - H.D. foot gives excellent surface grip. It's unique design and excellent foot quality ensures that there is no need to purchase spare feet. Titan barrier is stackable - the design allows for simple and practical storing, stacking, and unstacking.
