Plastic Pole Covers

Protecting & Delineating Poles

PWS offer Plastic Pole Covers in a range of colours to suit the sign type being mounted on the steel traffic sign pole. They are designed to offer increased visibility to the motorist and provide extra safety to pedestrians by making the signpost more visible. They also extend the life of older poles by giving them a fresh, clean look without the cost of replacing the pole. The pole covers are available to cover a 76mm diameter steel pole and are supplied in 300mm long sections. Each section fits snugly with the sections above and below and provide a smooth finish when installed.

Pole Covers are durable and provide excellent visibility to pedestrians and motorists and are available in black, white and yellow for use with Regulatory (Chapter 5 of T.S.M.) and Warning (Chapter 6 of T.S.M.) signs.

Safe Routes to School

PWS offer plastic pole covers in special colours for use on poles in Safe Routes to School (SRTS) schemes, which feature in the Design Guide section of the National Transport Agency's Active Travel program.

Offered with the 4 special coloured hoops, PWS can supply 76mm Plastic Pole covers for 76mm diameter poles and also bespoke Powder Coated 89mm Diameter Poles and H-Frames in 89mm diameter for use on School Warning signs with flashing Amber beacons

The colours are –

- RAL 1034 – Pastel Yellow
- RAL 3014 – Antique Pink
- RAL 1018 – Zinc Yellow
- RAL 6017 - May Green
